Catalog Products

The evolution of car care technology.

About Us

Our history begins in 1974, as a small family company in the city of Cabreúva, 40 miles away from São Paulo (Brazil). In the 70's the national automotive industry in Brazil was consolidated with the presence of major automakers with a fleet of 15 million vehicles. The positive market and entrepreneurship scenario made it possible to invest in research, innovation, and the development of high quality products. In 2017, Interbrilho expanded its activities into the US market, and Intershine distribution was created.

Brazil: Carnauba's Country

Roadshine products are made with REAL BRAZILIAN CARNAUBA WAX, a native plant from the northeast of Brazil. It is known as the "queen of waxes", and its pure state usually comes in the form of hard yellow-brown flakes. Carnauba wax can produce a glossy finish. It has hypoallergenic, emollient, and shining ingredients.

At Roadshine we are proud to be considered Carnauba Wax Specialists!

Raw Carnauba Wax
